

We invite you to become a LifeVantage® TrueScience® Liquid Collagen Consultant

Truescience® Liquid Collagen is new in New Zealand and Australia. The Product launched in the US in June 2022 and has sold more than USD \$20 Million to date. The reason for this is simple. It is NOT a supplement, but a Collagen Activator.

It turns on your body's ability to produce its own Collagen at a rate that no supplement can compete with. The results speak for themselves.
